

Create a full-screen hero section for a DJ/electronic music artist website with the following specifications:

LAYOUT & STRUCTURE:

- Full viewport height (100vh), dark theme
- Asymmetric layout with three zones: left navigation, center artist showcase, right rotating badge
- Top bar with logo (left) and social links (right)

COLOR PALETTE:

- Background: deep black (#0A0A0A / #111111)
- Primary text: off-white (#F5F5F5)
- Accent 1: coral/salmon red (#E85A4F or #FF6B5B) — for grunge title texture
- Accent 2: teal/mint green (#4FD1C5 or #5EEAD4) — for grunge title texture
- Muted gray for numbering (#666666)

TYPOGRAPHY:

- Logo: bold condensed sans-serif inside a rounded rectangle stamp/badge
- Menu items: large bold sans-serif (Inter, Helvetica Neue or similar), ~64px, weight 700
- Menu numbering: small uppercase "01.", "02.", "03." prefix in muted gray
- Hero artist name "JAMES HYPE": massive distressed/grunge typography with paint splatter texture, two colors (coral + teal) split or layered, occupying ~60% of viewport width

CENTER COMPOSITION:

- Black & white photograph of DJ behind decks/CDJs, centered
- Large grunge-textured artist name overlaid BEHIND/AROUND the photo (photo cuts through the typography)
- Subtle vinyl record graphic on the left side (thin circular outline, decorative)

LEFT NAVIGATION:

- Vertical menu: "01. About", "02. Social", "03. Music" (add "04. Tour", "05. Contact")
- Generous line-height, left-aligned
- Hover: slight slide-right animation + color shift to accent

RIGHT SIDE:

- Circular rotating badge "TOUR · AUSTRALIA · TOUR · AUSTRALIA" with map silhouette in center
- CSS animation: infinite slow rotation (20s linear)

TOP RIGHT:

- Minimal social links: "YT IG FB" uppercase, letter-spaced, small

EFFECTS:

- Grain/noise overlay on entire hero (subtle)
- Paint splatter PNG texture on title
- Smooth scroll snap

STACK: HTML + Tailwind CSS, or React + Tailwind. Use Google Fonts (Anton, Bebas Neue, or Archivo Black for title; Inter for menu).
